UTRID STUDENT WORKSHOP:
Professional Organizations and Networking
Presented by Melody Fico

Many professions depend on a central governing body to provide various services such as standardized licensure or representation of practitioners’ interests. What professional organizations are available for interpreters? What exactly do these organizations provide us? What does the daily administration entail, and how does it affect us? This workshop will present resources available in Utah that interpreters can utilize to be a part of a community. There will be an emphasis on the structures of RID/UTRID and the opportunities available to network within these organizations.
